

Domus

DIVIDER STRIPS

Why Use Domus Terrazzo Divider Strip?

Divider Strips are commonly used in terrazzo flooring to serve two basic needs: form and function. For thin-set epoxy terrazzo, the most common divider strips are an "L" type manufactured in a white zinc alloy or brass.

Since 1947, Terrazzo & Marble Supply Companies has distributed divider strips as well as all of the other raw materials included in a terrazzo floor. We have taken this insight and expertise from our years of industry experience to develop a line of divider strips specifically designed and manufactured for the terrazzo industry. T&M is pleased to offer Domus Terrazzo Divider Strip, a quality divider strip created for terrazzo flooring, by a terrazzo industry leader.

Form

Aesthetically, divider strips are often the skeleton to the terrazzo floor's design, offering architects and interior designers the ability to create custom designs and patterns. Divider Strips may simply serve as a transition between colors or they may be bent on the job site or water-jet cut at the factory to form intricate designs, logo artwork and lettering. The thickness and metal of the divider strip may also be varied to compliment the flooring's design. The divider strip can be as apparent or discrete as your design requires.

Custom Terrazzo Strip Design

T&M offers Custom Strip Design for any of your terrazzo projects from basic patterns to the most complex designs. We have done custom strip designs for schools, hospitals, airports; ultimately all types of terrazzo projects to amplify the beauty and craftsmanship of any terrazzo floor. To provide an accurate and timely quote, please provide the following information:

- **Project Name**
- **Project Date**
- **Company Name**
- **Contact Name**
- **Phone Number**
- **Overall Dimensions of Design**
- **Overall Height (1/4, 3/8, 1/2 or other)**
- **Desired Strip Height (16ga, 1/8, 1/4 or other)**
- **Material (Brass or Zinc)**
- **Type of lettering (Solid or Terrazzo filled)**

Artwork is required; please provide an AutoCAD or Adobe Illustrator file for the desired design.

Strip Sizes

1/8" x 5/8" x 18 Gauge "L" - Zinc
1/4" x 1/8" Heavy Top 2 Piece "L" - Brass
1/4" x 1/8" Heavy Top 2 Piece "L" - Zinc
1/4" x 1/8" "L" Extruded - Zinc
1/4" x 1/4" "L" Extruded - Zinc
1/4" x 1/2" x 16 Gauge "L" - Zinc
3/8" x 1/8" Heavy Top 2 Piece "L" - Brass
3/8" x 1/8" Heavy Top 2 Piece "L" - Zinc
3/8" x 1/8" Heavy Top 2 Piece "L" - Zinc (Notched)
3/8" x 1/4" Heavy Top 2 Piece "L" - Brass
3/8" x 1/4" Heavy Top 2 Piece "L" - Zinc
3/8" x 1/2" Heavy Top 2 Piece "L" - Zinc
3/8" x 1/2" X 16 Gauge "L" - Brass
3/8" x 16 Gauge "L" - Zinc
1/2" x 1/8" Heavy Top 2 Piece "L" - Zinc
1/2" x 1/4" Heavy Top 2 Piece "L" - Brass
1/2" x 1/4" Heavy Top 2 Piece "L" - Zinc
1/2" x 1/2" x 16 Gauge "L" - Zinc
5/8" x 1/8" Heavy Top 2 Piece "L" - Zinc
1 x 1/8" Heavy Top 2 Piece "L" - Zinc
1 x 16 Gauge Standard - Zinc
1 1/4" x 1/8" Heavy Top 2 Piece - Brass
1 1/4" x 1/8" Heavy Top 2 Piece - Zinc
1 1/4" x 1/4" Heavy Top 2 Piece - Zinc
1 1/4" x 16 Gauge - Zinc
Channel Strip 6' (1/2") - Zinc

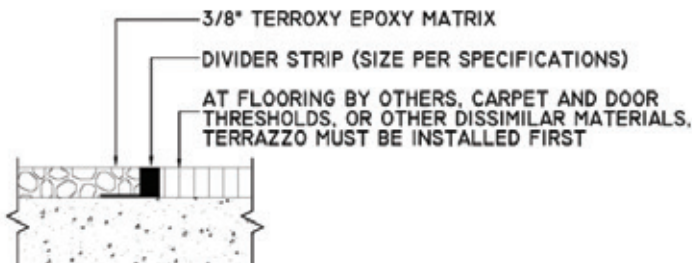

Function

The primary function divider strips offer is to control cracking in your terrazzo flooring topping. Typically divider strips are placed in areas where an architect or engineer believes the floor may crack. Instead of cracking in the panel or design of the flooring, the topping will crack along the divider strip joint.

Termination Joint Strips

"L" type strip is position adjacent to dissimilar flooring or at door thresholds.

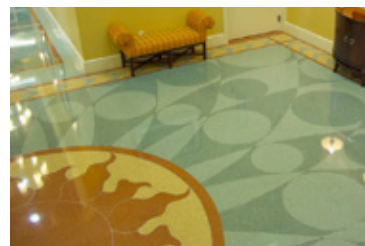

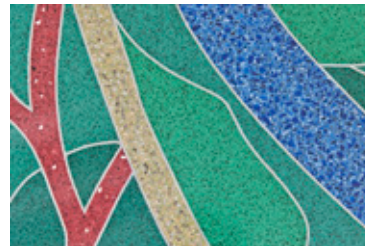

Support

T&M offers complete technical assistance on the positioning or type of Domus divider strips used for terrazzo flooring including detail drawings.

With your surface as the canvas, T&M provides all the tools necessary to transform your creativity into durable and timeless art. That is why architects, designers and contractors make T&M the first stop for all of their terrazzo needs.

As the only source for all of your terrazzo supply needs, T&M offers a huge selection of divider strips, marble, recycled glass and other specialty chips as well as Terroxy Resin Systems' epoxy matrix, available in any color and limited only by the imagination.
